

BFD BALI FLAG

The BFD Bali Flag is very similar to a traditional Teardrop, but with more of a "square" shape, allowing a larger area for displaying your graphics.

The range is available in 3 sizes with overall heights of 2.5M, 4.0M & 5.3M.

The display flag is printed with a digital sublimation process that produces rich colours and a full image strike (95%+) mirror to the reverse side.

All units are supplied complete with a soft carry bag to store both the poles and the printed panel in one unit.

BFD Bali Flags are suitable for both indoor and outdoor use depending on the base you use - Folding Cross-Base, Spike Base or Flat metal.

BFD Bali Flags are supplied with a SPIKE base as standard. Units can also be ordered as a KIT complete with folding cross base & water bag.

- * Reinforced fiberglass poles
- * Light weight
- * Soft carry bag included

Including carry bag
