

ROLL-UP BANNERS

The roll up display banner (also known as a pull up) is an ideal display solution for internal applications & displays. Light weight and fully portable, they offer one of the best value for money display solutions available. Ideal for Trade-Shows, Exhibitions and conferences, the display is fitted with a full-colour digital sublimation textile print that will NOT curl at the edges, tear or fade with use.

New to the range are Double sided A3 and A4 rollup banners. Designed for tabletops and counters, these smaller rollup banners are great for highlighting products, special offers or as a promotional tool. Ideal for Point of Sale and Receptions.

Double-Sided Roll ups

The double-sided rollup features two display panels back to back, allowing you to spread your message across with 360 degree visibility. Two prints mean twice the impact!

Black Bases

The ROLL-850B, ROLL-1000B and ROLL850-PREM-B come with a black aluminium base.
