

# ROLL850

The BFD-Roll850 Roll up (also known as roll up and pull up) is ideal as a display solution for internal applications & displays. Light weight & fully portable with a plastic internal roller mechanism, they offer one of the best value for money display solutions available.

Ideal for Trade-Shows, Exhibitions & Conferences, the display is fitted with a full-colour digital sublimation textile print that will NOT curl at the edges, tear or fade with use.

## Blockout print option

The ROLL-850B uses a special blockout media for the printed panel that blocks 99.8% of light making it perfect for applications with high ambient light conditions.

- Aluminium silver colour
- Light weight
- Soft carry bag
- NO minimum order quantities
- Curl-free sublimation textile print

Including carry bag

Transport in car

Other sizes and styles are also available to suit almost any application. BFD products are printed and assembled in Australia so our production times are FAST! Most BFD products are available with NO minimum order quantities.
