

BFD TEARDROP FLAG

The BFD Teardrop Flag follows the traditional Teardrop shape that is popular for both outdoor & indoor eye-catching graphics.

The range is available in 3 sizes with overall heights of 2.2M, 3.5M & 4.8M.

The display flag is printed with a digital sublimation process that produces rich colours and a full image strike (95%+) mirror to the reverse side.

All units are supplied complete with a soft carry bag to store both the poles and the printed panel in one unit.

BFD Teardrop Flags are suitable for both indoor and outdoor use depending on the base you use - Folding Cross-Base, Spike Base or Flat metal.

BFD Teardrop Flags are supplied with a SPIKE base as standard. Units can also be ordered as a KIT complete with folding cross base & water bag.
